

## **Press release**

Liege Airport, 27 December 2017

### **Liege Airport is investing more than 50 million euros in cargo in 2018**

**Liege Airport has recently decided to invest in 4 new parking areas for large aircrafts. This investment amounts to 30 million euros.**

Following last month's decision to provide a further 20,000 m<sup>2</sup> of space for cargo, it means that next year, Liege Airport is investing more than 50 million euros in cargo.

"The increase in volume we have seen in 2017 shows no sign of slowing down in 2018. We need to anticipate this growth and speed up the development plan we had in place," explains Luc Partoune, CEO of Liege Airport.

The new parking areas for aircrafts will be operational in 2019. They fall within the Flexpress strategy, which prioritizes cargo.

Liege Airport is expecting a record year in 2017 with more than 700,000 tonnes handled.

#### **About LIEGE AIRPORT:**

Liege Airport, 8th largest cargo airport in Europe and 1st in Belgium in this sector, is the only European airport giving priority to full cargo. The airport is specialised in express transport, e-commerce, pharmaceuticals and perishable goods, as well as in live animals. Liege Airport, with its brand Flexpress, is an airport that is operational 24 hours a day and 7 days a week without restrictions, offering flexible and rapid quality service, all at less than one day by truck at the heart of the Amsterdam-Paris-Frankfurt Golden Triangle, reaching 400 million consumers.
