

Passionate about the air cargo sector?

You want to learn and evolve in an expanding company?

We have a job for YOU!

SPACE CONTROLLER AGENT

You will collaborate in flight maximizing/optimization in terms of load factor and volume load factor to achieve maximum revenue per flight.

Your job description:

You will be the interface with relevant parties to meet flight goals :

- Proactively interfacing with the logistics team/GSAs to ensure on time arrival of the cargo according to flight schedule
- Airline active supervision on both online & offline handling agents to ensure proper buildup progress and follow up on planning changes.
- Distribute relevant messages to appropriate parties
- Identify gaps in planning vs operations obstacles and provide solutions to maintain and deliver the airline goals.
- Ensure maximum utilization of the flight in terms of payload and volume.
- Active trouble shooting and supervision of the daily activity: customs, security, documentation and regulations.

Your qualifications:

Required skills

- At least 2 years of relevant experience with either airline operations, handling agent, GSA or freight forwarder.
- knowledge of Cargo operations; experience in cargo buildup is an asset
- Excellent team working and interpersonal skills
- Proven ability to influence cross-functional employees without formal authority
- Excellent written and verbal communication skills French/English
- Ability to execute on multiple priorities in a fast-paced environment

- Open minded and willingness to learn

Your added-value

- Experience and knowledge in load planning – also an advantage

We offer you :

- An attractive salary package including fringe benefits
- A key function in an expanding company
- Specific trainings
