

**Passionate about the air cargo sector?  
Want to be part of the development of the company and to have new  
challenges as a manager of a strategical department?**

**We have a job for you!**

## **Flight Ops Manager**

### **Your job description:**

- You will be the manager of all operations linked directly to the aircraft and the cargo to be loaded and offloaded
- You'll be in charge of the loadmasters and the load controllers' teams
- You'll be the referent, the coach and the training manager in your department and all other members of the staff who require your teachings
- You'll be linked to the Finance department for the validations for invoicing
- You'll be part of the group of the management team and will participate to the regular management meetings and operational decisions to be taken.
- You'll actor of the Quality Policy and be the direct link of the Quality Manager

### **Your qualifications:**

#### **Required skills**

- You have a Bachelor or a Master degree related to transport and logistic (preferable in air transport)
- You are fluent in French & English (Verbal & written)
- You have your category 6 in DGR (IATA certification) – other air cargo certifications are an added value
- You are computer-skilled (ERP, excel, word, ...)
- You have excellent human relationship (team spirit)

- You are able to work under operational constraints and tight deadlines
- You are flexible and able to invest extra hours in work if needed.

#### **Your added-value**

- You have as possible a real experience in Cargo activities (10 years would be appreciated)
- You managed already a big team in shift schedule system
- You experimented all kinds of airliners audits

#### **We offer you**

- An attractive salary package including fringe benefits
- Specific trainings
