

LIGHT & LINE MAINTENANCE PLANNER

REFERENCE CODE: ASLB19-039 Light & Line Maintenance Planner

DEPARTMENT: Technical

PURPOSE OF THE JOB

- To ensure that all:
 - Scheduled line maintenance is carried out in accordance with the approved Aircraft Maintenance Schedule of the entire ASLB fleet.
 - Unscheduled line maintenance tasks are carried out in accordance with the defined limits.
 - Associated administrative works in the Maintenance Information System and filing are accomplished.
- To prepare line maintenance tasks and small work packs, coordinate for execution with various MRO's, taking into account the optimal use of available manpower and available ground time between flights.
- To support and advise the Maintenance Control Center with tail assignment, maintenance limits on scheduled and unscheduled works and maintenance slots in order to come to optimal production and recovery plans.

KEY ACTIVITIES

- Optimize all short- and longer term (un-)scheduled line maintenance activities. You will be closely cooperating with internal and external departments, such as our Operations Control Centre, Flight OPS, Engineering, Commercial Department and external MRO's.
- Together with the team, you will prepare the scheduled maintenance work packages considering the availability of the required parts, tools and manpower skills to be able to execute the maintenance activities within defined Turn-Around Times and costs.
- Optimize the tail assignment, you will be responsible to ensure our aircraft are utilized as efficient as possible.
- Support the operations by sourcing AOG parts and organize aircraft recovery worldwide, will be part of the daily challenge.
- Monitor the performance of our providers on the ramp and occasional visits to line and base Mx stations, you will have a variety of demanding tasks which will also ensure your personal growth and career development.
- Your positive "Can-Do" attitude and the willingness to question the status quo continuously within the Maintenance Planning & Support Department, will enable us to optimize our daily processes and performance.

REQUIREMENT & QUALIFICATIONS

- Three years experience in an aviation maintenance or CAMO environment
- Experience with B737, B747 and B757 is an asset.
- Experience in planning and organization of aircraft maintenance is an asset.
- Computer literate, MS Office with good administration skills.
- Good command of the English and French language (written and spoken).
- Able to demonstrate accuracy and analytical skills.
- Team-player, good communication skills with all levels in the organization and at suppliers/MRO's
- Ability to function successfully in a pressure environment.
- Work in an organized way to be able to meet set deadlines.
- Negotiation and convincing skills.
- To display a positive, open and cooperative behaviour in order to facilitate a good relationship inside and outside the department, avoid and help to solve conflicts.
- To maintain a professional office environment with due regard to confidentiality and security of aircraft data.
