

For our group company ABC/AFL we are looking for a

## Facility-, Fire Protection & Safety Officer (f/m/x) Full-time, soonest

### Brief Description

For our warehouse in Liege, Belgium we are looking for a Facility-, Fire Protection & Safety Officer who ensures the fire safety of the facility and of the people working in the warehouse under his/her care to meet all necessary local and federal codes and regulations. In his/her role he/she is responsible for acquiring necessary building permits and must remain knowledge of the permit procedures and requirements.

As local expert in the fire protection and safety, the Facility-, Fire Protection & Safety Officer is the first point of contact for any concerns regarding health and safety matters and provides education and training to all company and facility staff members in order to facilitate the safety of the building and its employees.

### Your Duties in Detail

- Ensure the implementation of all internal guidelines and legal requirements regarding the set up of the facility to comply with technical regulations as well as to avoid any damages and defects
- Perform regular fire safety inspections of the facility to monitor internal construction works and changes in use of the facility including elaboration of concepts considering preventive fire protection
- Elaborate and implement health and safety plans to existing infrastructure and business processes covering fire prevention, the security environment and the possibility of a disaster including risk assessment that include suggested improvements
- Provide regular safety training for warehouse staff in accident prevention and occupational safety techniques in cooperation with the Ground Handling Agent
- Being competent point of contact for employees, customers, authorities and suppliers

### Background & Personal Skills

- Specific qualification in the area of facility management, especially in infrastructure and technical property management
- Minimum 5-year experience in the area of ground handling environment and facility management in a logistic company
- Possessed fire investigation certification and/or additional certifications related to fire safety
- Ability to operate in an international and multi-cultural environment
- Professional knowledge of the current relevant law, regulations and guidelines in the area of occupational safety and fire protection
- Ability to communicate clearly and effectively with all levels of employees, customers and suppliers
- Conscientious attitude, strategic thinking, result orientation
- Computer literacy including specialist software
- Language skills: fluent English and basic French (verbal and written)

### What We Offer

In addition to a qualification and performance related remuneration system and exciting projects in an international work environment, we offer diverse trainings and the opportunity to work in a challenging and expanding company with a great team spirit.

**Would you like to be part of our team? Please send a cover letter and your full CV (both in English) stating your salary expectation to [hr.europe@airbridgecargo.com](mailto:hr.europe@airbridgecargo.com). We look forward to meeting you.**
